

Inplenion International AG is acquiring Insight Solutions AB, a market leader in Sweden for CFO Advisory Services.

Inplenion International AG, a leading provider of business consulting services and Oracle Platinum Partner headquartered in Switzerland, acquires Insight Solutions AB in Sweden. The transaction will be completed by the 23rd of March 2017. This creates a fast-growing international advisory, software implementation and managed service company with more than 150 employees. It also results in one of the largest Oracle EPM and Business Analytics practices in Europe and the Middle East.

Customers will now get access to 24/7 functional and technical services and support from a company that delivers CFO advisory and software implementation to the largest companies in all our markets.

Insight Solutions AB is headquartered in Stockholm and is an Oracle Gold Partner that helps CFO offices to automate and streamline their financial planning processes and reporting needs. It is a leading CFO services provider in the Sweden.

"The acquisition of Insight Solutions AB is in line with Inplenion's Strategic Plan, to expand in to Scandinavia. Inplenion gains through its full integration an appealing customer base and outstanding financial planning and accounting knowledge. Both functional and technical expertise. At the same time, we considerably strengthen our presence in Europe that we will continue to extend. It is another step in the successful development of Inplenion and we will continue to strengthen our position in all markets where we operate. I'm looking forward to the new opportunities offered to us with this acquisition and welcome the nicely managed Insight Solutions AB into Inplenion", states Inplenion CEO Jann Tadorian.

Max Persson, current CEO of Insight Solutions AB says that this creates an unparalleled skillset in one single company, that will be to a great benefit to our customers.

"Through the synergies that this will give us, it will strengthen, widen and deepen our abilities as a service provider for the CFO office. We are convinced that Insight Solutions AB will continue to extend its leading position in Sweden and through the integration with Inplenion and thereby, by common competencies and resources, further develop and expand our business in Scandinavia"

Patrick Plant is now appointed Managing Director and Max Persson will change position to Vice President Region Europe, where he will work to leverage synergies with Inplenion's global service portfolio.
